

THE BRAND

Les Peyrautins is a range of wines crafted according to our oldest traditions. This genuine range of wines was imagined by our team of passionate winemakers.

To make this range, our experts use modern technics to recreate the best of traditional French wine. The result, is a perfect combination of the New and old world, offering a typical red wine that displays all the qualities and traditional aromas of each varietal.

TERROIR

The Pays d'Oc benefits from the Mediterranean climate. With its coastline bordering the region in the South, it provides hot and dry summers for a perfect maturity. On the other side, the Black Mountain brings enough humidity and cool temperatures for the vineyards to produce grapes packed with fruity aromas. The terroir effect is very noticeable in this region due to the great variety of winegrowing areas that create an expression of the grape varieties that is unique.

This specific Chardonnay is sourced from lowland vineyards from the Pays d'Oc, planted on calcareous marls. These well-drained soils, located close to the Canal du Midi, are protecting the vines from drought as the Chardonnay needs enough watering to produce balanced and healthy grapes.

WINEMAKING

The grapes are harvested early in the season, in the fresh morning. The pressing is very gentle, in a pneumatic press preserving the crop quality. 30% of the wine ferments under the influence of French oak, with temperature control. To preserve the freshness of the wine, the malolactic fermentation is stopped. The wine is aged during 5 months on its fine lees with regular stirring before bottling.

WINEMAKER'S NOTE

Young looking bright gold colour. Enticing aromas of vanilla, lime blossom, lemon curd and pear. The palate is harmonious, with a creamy mouthfeel. This gorgeous chardonnay ends with a clean, bracing acidity, carrying the flavours to a long conclusion...

WINE AND FOOD PAIRING

Enjoy this wine chilled, with Chicken in lemon butter sauce, roasted mushroom, Niçoise salad, Quiche Lorraine, creamy cheeses...
