SOUTH AUSTRALIA

VINEYARD

The soils in our vineyard and our premium growers are comprised of red sandy loam over a limestone base, perfect for growing grapes with intense flavours.

Vintage 2023 brought both challenges and triumphs to the picturesque wine region of the Riverland in South Australia. As the grapes ripened under the warm Australian sun, winemakers faced unpredictable weather patterns and viticultural obstacles, including the largest flood of the mighty Murray River in 50 years, yet emerged with a vintage that showcased their resilience and craftsmanship. Yields were well down on regional averages leading to intense flavours in the grapes.

WINEMAKING

In order to ensure no loss of flavour intensity we harvest in the early hours of the morning and press the grapes as soon as they arrive at the winery. The intensely sweet juice was allowed to clarify naturally prior to inoculation with selected yeasts and a slow, controlled fermentation. Once the desired level of sweetness was achieved the ferment was stopped and the wine bottled on the Angove Estate.
