LONG ROW

2022 RIESLING

SOUTH AUSTRALIA

VINEYARD

Sourced from our Nanya Vineyard in the Riverland from our own “heritage” clone of Riesling originally planted by Tom Angove in the early 70’s. This particular clone of Riesling produces an extremely varietally expressive wine in our region. Cuttings have since been grafted to new rootstocks to re-establish this heritage on modern trellising with drip irrigation – the legend continues.

Coming off a bumper crop in 2021, we knew that yields from 2022 were going to be down. This was exacerbated by a cool spring, and hailstorms in November. Despite this, the mild summer temperatures, abundant sunshine and lack of rainfall created a perfect harvest season – steady ripening across whites and reds aided fruit intensity and flavour development, while cool nights meant acids remained intact. While yields are down, quality is exceptional, resulting in fantastic wines.

WINEMAKING

Picked late at night to harvest the grapes as cold as possible the grapes were transported to the winery and pressed using modern membrane tank presses. After cold settling the clear juice was carefully racked to cooled fermentation tanks and inoculated with selected yeasts. Cool fermentation was followed by minimal handling, filtration and bottling at the Angove winery.
