

2020 CHARDONNAY

MORNINGTON PENINSULA
VICTORIA

VINEYARD

Spring and early summer rains across the region generally led to patchy fruit set and a relatively low-cropping year. We are conscious, though, that all that rainfall helped Mornington escape the smoke issues plaguing friends in other regions.

The upside is the region's flagship variety, Pinot Noir, Chardonnay and Shiraz typically performs best when yields are low producing wines of great structure and intensity, even though there isn't a lot of it.

WINEMAKING

Unwooded style, whole bunched pressed and fermented in stainless steel. Left on gross lees for 5 months to encourage complexity. Minimal intervention winemaking, early morning picking to capture flavour profiles and minerality

TASTING NOTES

Ripe cantaloupe aromas & honey overtones. Good acid & fresh citrus flavours give a mouth-filling experience. Exhibiting rich ripe peach & melon fruitiness of the Mornington Peninsula region.
